Mishkat Shaikh

Computer Engineer

I'm a computer engineering student passionate about technology and eager to learn. I enjoy problem-solving and collaborating with others to achieve goals. With a strong programming background, I'm excited to contribute to meaningful projects and grow in the field of computer engineering.

Personal Project

○ Personal Portfolio Website

An interactive and visually engaging personal portfolio showcasing skills in HTML, CSS, JavaScript, and responsive web design. Highlights include dynamic sections such as About, Skills, Projects, and Education, with animated UI/UX effects and dark mode support. Projects featured include an Online Book Store, Hotel Management System, and E-commerce Website, demonstrating both frontend development and problem-solving capabilities.

○ Online Book Store Using JAVA

"Online Book Store" for admin book management. Features add, update, remove books, price sorting, total value calculation. Customers search titles, view details, read/add reviews. Classes represent books/reviews with ArrayLists, Vector for quick title access. Inventory managed via arrays. Sample data included, console input/output interaction. Core Java concepts demonstrated for online book store.

○ Hotel Management System Using Vb.net

Hotel Management System in VB.NET: Simplifies operations with reservation, guest management, billing, inventory tracking, staff coordination. Real-time updates on room availability, personalized guest services, automated billing streamline tasks. Easy-to-use interface, comprehensive reports aid decision-making. Scalable solution ensures smooth operations, enhanced customer satisfaction.
